

# Tango

Passion, sophistication, and strength characterize the Tango. All of these elements combine to make this one of the most recognized dances in the world. The American Ballroom version developed from the sultry Argentine Tango. The step is characterized by cat-like, stealthy styling.

In addition to classic Tango songs like *Por Una Cabeza* by Carlos Gardel featured in movies like *True Lies* and *Scent of a Woman*, songs that will surprise you with a Tango include the *Theme from Peter Gunn* by Henry Mancini and *Sway* by The Pussycat Dolls.
